

 James Urban Bees

CAPE TOWN

MEADERY

Apimondia African region

There were a record number of entries in both the honey and mead sections of the event. The honey and mead was world class in quality. So congratulations to those who won 1st, 2nd, 3rd and those commended. Unfortunately the last day was extremely packed. A number of people were not included in those called forward to collect their awards from the President of Apimondia. For that we offer a sincere apology. The sponsors of the prizes were not acknowledged and for that omission we also tender a sincere apology. The full list of those who achieved a 1st. 2nd. 3rd or commended is contained in the detailed list just published.

Our generous sponsors are acknowledged here:
